Welcome

Welcome to the *da Vinci* Surgery Online Community, where practitioners of *da Vinci* Surgery come to discover new techniques, create conversations and build their own network of colleagues from the *da Vinci* Surgery community.

[Join The Community](#)

Who is this site for?

Membership to this site is free, but is restricted to practitioners, personnel or residents/fellows connected to, or in the process of considering investment in, a *da Vinci* Surgery program. All accounts are validated upon sign-up. Accounts which cannot be validated will have basic access to the community. If you have any issues please contact us at community@intusurg.com.

This site is *not* open to the general public.

[Terms & Conditions](#) | [Disclaimer](#) | [Privacy Policy](#)

Accept the declaration:

Potential for human error

Potential for equipment failure

Potential for anesthesia complications

Individual surgical results may vary. Risk specific to minimally invasive surgery, including da Vinci® Surgery, include but are not limited to:

Temporary pain or nerve injury associated with positioning

A longer operative time

The need to convert the procedure to an open approach.

Converting the procedure could mean a longer operative time, a longer time under anesthesia, and/or the need for additional or larger incisions and/or increased complications.

Surgeons should counsel their patients that there are other surgical approaches available. You should discuss your surgical experience and review these and all risks with your patients. Patients and physicians should review all available information on non-surgical and surgical options in order to make an informed decision. Clinical studies are available through the National Library of Medicine at www.ncbi.nlm.nih.gov/pubmed.

Be sure to read and understand all information in the applicable user manuals, including full cautions and warnings, before using da Vinci products. Failure to properly follow all instructions may lead to injury and result in improper functioning of the device. Training provided by Intuitive Surgical is limited to the use of its products and does not replace the necessary medical training and experience required to perform surgery. Procedure descriptions are developed with, reviewed and approved by independent surgeons. Other surgical techniques may be documented in publications available at the National Library of Medicine. For Important Safety Information, indications for use, risks, full cautions and warnings, please also refer to www.davincisurgery.com/safety and www.intuitivesurgical.com/safety. Unless otherwise noted, products featured are available for commercial distribution in the U.S. For availability outside the U.S., please check with your local representative or distributor.

I AGREE

Create the programm of your training:

- Access to “My Training”
- Choose the software P5 for surgeon and CV Xi System, language is on your choice:

Online Training and Assessments

My Training
